

Equipment & Service: Cap Feeder

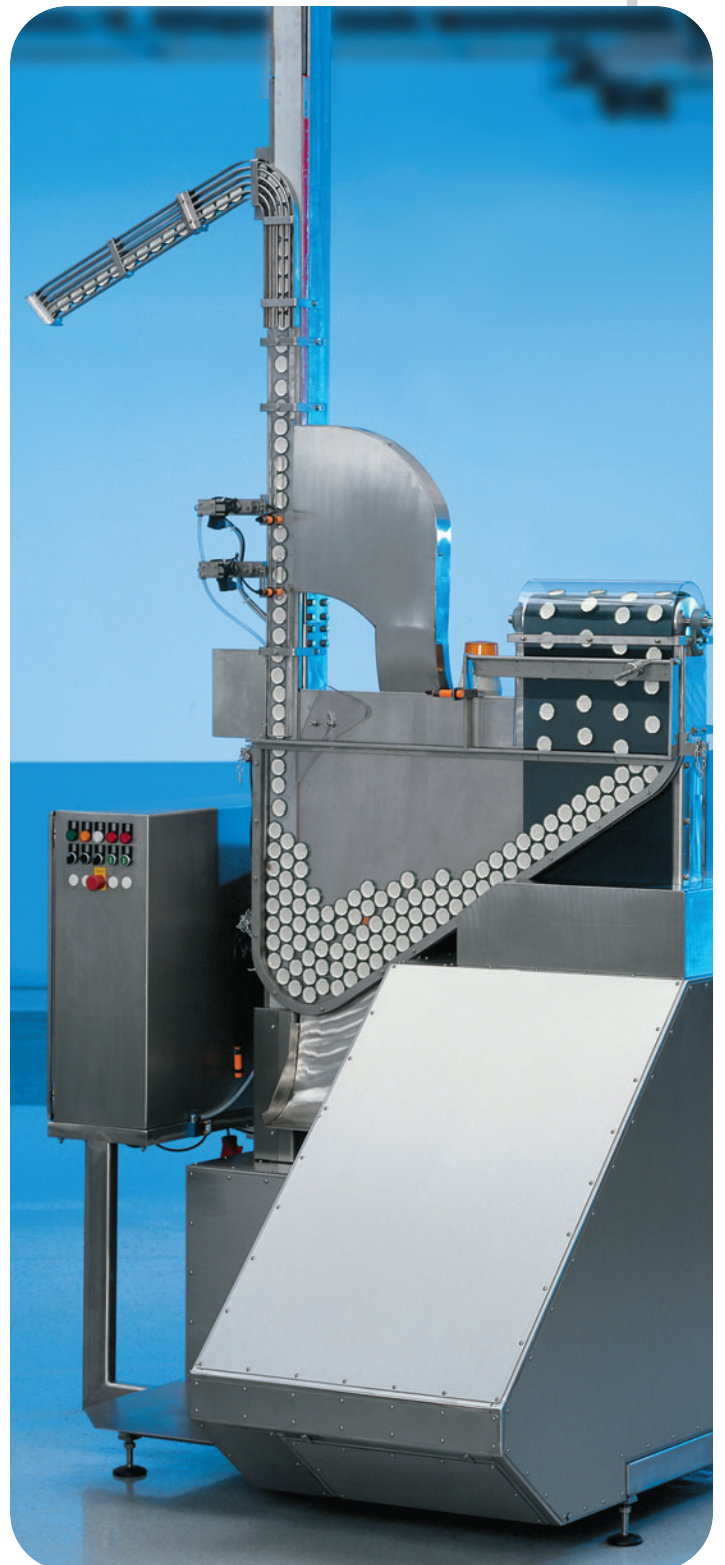

Silgan White Cap Cap Feeder, Type CSE

... is the top rate cap feed and sorting system for Silgan White Cap metal closures.

The unit consists of hopper, feed conveyor, sorting device and elevator. The patented cap feed system works on several lines. The closures are sorted by gravity.

Using the Silgan White Cap Cap Feeder, Type CSE thus guarantees:

- Optimum employment of human resources
- Physical separation of feed from the product area
- High line speed with minimum electrical requirements
- Simple handling
- Short change-over times
- Low-noise operation

Technical Information

Silgan White Cap Cap Feeder, Type CSE

➤ Line speed PT closures	Ø 40	1,600 per min.
	Ø 51	1,600 per min.
➤ Line speed Twist-Off® closures	Ø 38	1,600 per min.
	Ø 53	1,400 per min.
	Ø 63	1,300 per min.
	Ø 77	1,000 per min.
	Ø 82	850 per min.
➤ Hopper contents	0.8 m ³	
➤ Electrical requirements	400 V	
	50 Hz	
	1.65 kW	
➤ Compressed air	6 bar	
➤ Space required	1,500 x 2,500 mm
