

## Metal Closure Programme

### The Classic Twist-Off® Closure

Silgan White Cap's world-famous Twist-Off® is a versatile vacuum-holding metal lug closure. A quarter of a turn seals, removes and reseals it. It is air-tight and liquid-tight.

Flexibility of use is one of the closure's major advantages. Together with sealing machines, it increases not only product quality but also production line output.

The closure lugs are screwed underneath the glass container threads, thereby pressing the pre-heated closure compound against the top of the glass, forming a hermetic seal. The sealing compound can be adapted to different requirements and product-specific processing conditions. The Twist-Off® system offers a superior closure for hot, cold and aseptic filling, pasteurisation and sterilisation.

### Possible Applications

#### ➤ Beverages:

Juice, sports drinks, non-carbonated drinks, ice tea

#### ➤ Delicatessen:

Mustard, horseradish sauce, salad cream, mayonnaise, barbecue sauces, ketchup, sauces in general, fruit and vegetable preserves, jam

#### ➤ Pickles:

Gherkins, Mixed Pickles

#### ➤ Fish:

Marinated fish or fish preserves

#### ➤ Dairy Products:

Milk in glass bottles, cream, coffee cream, yoghurt in disposable or returnable jars

#### ➤ Possible Combinations:

RTO, with Step RTS, RTA design. Smallest retortable diameter 27mm for coffee cream or other liquid food products.

Retortable small diameter 38mm for liquid food products

## Technical Information

### Special Features

- Twist-Off® lug closure made from corrosion-resistant tinplate
- Excellent track record, continuous improvement
- Protects the product against oxidation and subsequent microbial decay
- Consumers can open and reseal it easily without utensils

Closure	Closure Type
