

Plastic Closure Programme

Plasti-Twist® Plus 63mm VHJ Closure

All-Plastic Vacuum Holding Closure

The 63mm Plasti-Twist® Plus injection molded closure is designed for cold fill & hot fill applications for plastic and glass containers.

The 63mm VHJ Plasti-Twist® Plus Characteristics:

- All-plastic closure.
- Multi-lead (4) Thread for improved cap application & removal.
- Uses non-PVC EZ Torque® Liner.
- Easy-to-open and easy-to-reseal.
- Patented drop down safety band for improved tamper-evidence.
- Available in colours and with outside printing or debossing.
- Can be applied with Straight-Line and Rotary cappers.
